

P/N: I228F

3x Wide View Illuminated Magnifier, Clamping Style

- Lens size: 175 x 110 mm
- Magnification : 3x
- Wide view lens for larger coverage
- Table clamp design
- Replaceable lamp
- 230 Volts, 50 Hz

Note: Optimum magnification is 3X. Higher ones like 5X & 8X are available from us on request. We do not recommend 5X or 8X for continuous use since these mean lesser field of view and more eye strain

P/N: I228

3x Round Illuminated Magnifier, Clamping Style

- Lens size: 125mm diameter
- Magnification : 3x
- Durable spring-balanced arm for positioning
- Replaceable lamp
- 230 Volts, 50 Hz

Note: Optimum magnification is 3X. Higher ones like 5X & 8X are available from us on request. We do not recommend 5X or 8X for continuous use since these mean lesser field of view and more eye strain
